

You Ask For It, We've Got It!

A New FP160VS Finn-Power Crimper

More and more, industry demands an engineered coupling system for industrial hose clampless assemblies. We have responded to distributor requests and can now crimp up to 6" ID hose.

Crimping

- 360 Degree uniform seal
- Better coupling retention at higher pressures
- No protruding metal clamps

Swaging

IRP also swages using our Dixon Bayco **50 Ton Ram**. Internal up to 4" ID and external up to 6" ID.

Testing

IRP offers proof and burst testing, and has many **Canadian Registration Numbers** for a wide variety of hose assemblies and applications.

Please contact our **Customer Service or Field Sales representatives for pricing and information.**
